

*Tax Controversy
and Dispute Resolution –
strategies for navigating
the changing landscape
of global tax disputes*

***The new norm,
new strategies
and the future***

PwC invites you to an interactive discussion on the challenges that are emerging from the new tax environment. This session will provide you the opportunity to explore strategies for navigating the changing landscape that is placing pressure on corporate tax outcomes.

Our distinguished speakers and PwC Partners will lead the discussion around the critical changes – from increased transparency driving new policies and behaviours, to a change in approach from tax authorities around the globe. The focus will be on what these changes mean for you and your role, and to the potential impacts on your business.

Please join us as we consider the new environment, new strategies and the future. The session will include drinks and canapés.

We look forward to seeing you there.
